### COVID test kits available

[Florence, WI] –

Through Wisconsin Department of Health Services, Florence County Health Department currently has COVID rapid test kits available at a limit of two kits for each household member. The kits provide access to testing for an individual who may have symptoms or has been exposed to COVID. Test kits are available through the Mobile Clinic and at the main office of the health department. No name or identifying information is necessary to receive the kit.

Kits will be on a first come, first serve basis. You may call Rachael Barnhart/Public Health Assistant at 715-257-4552 for availability of current supply. Similar test kits are available for direct order but the health department supply provides increased availability for those who may not have internet access. “This is a pilot program to assess the need in our communities for people to have another way to have kits on hand should they want to test,” stated Annette Seibold/Health Officer.

For more information, go to the Florence County Health Department webpage at <http://www.florencecountywi.com/> or follow us on Facebook or Instagram. The Florence County Health Department is located on the first floor of the courthouse and is open Mon-Thursday from 8-4:30 or by appointment if needed.
