### **Teen Local Career Exploration Day**

[Florence, WI] -Florence High School will hold a teen local career exploration event on January 14, 2026 in coordination with UW Extension and Florence County Health Department. UW Extension surveyed high school students to determine careers they were most interested in learning more about. Students are able to choose four from the sixteen different career areas as the presenters explain the education and skill sets needed to assist the teens in decision making and understanding local options for employment and future careers. Presenters will identify the advantages and disadvantages of a specific career as students are able to ask questions.

This initiative is part of the Florence County Community Health Improvement Plan, which identifies career awareness as a key strategy to support youth in making informed decisions about their futures. The program appreciates the presenters from the community volunteering their time to make the teen exploration day successful. Partners hope to make this an annual event to inform and inspire local youth.

Florence County Health Department can be reached at 715-528-4837. Visit our website at <http://www.florencountywi.com/> for more information on programming. The health department is located on the second floor, 501 Lake Avenue in the Florence County Courthouse, open Monday through Thursday from 8 a.m. - 4 p.m. open during lunch and by appointment after hours.
